

Remaining Hot Today

Extreme Heat Warning in effect through 8pm EDT

Key Messages

- → Extreme Heat Warning remains in effect through 8pm EDT.
 - Peak heat indices of 100-105 degrees expected.
 - ◆ Cumulative effects of long-duration heat will cause significant impacts, especially since it is the first heat wave of the season. Check on those who may be vulnerable to heat. Watch for signs of heat related illnesses!
 - Minor relief is expected by Wed, but it will still be hot/humid Wed-Fri and additional heat headlines may be needed.
- → Isolated severe storms are possible 3-10 PM EDT today and again Wed afternoon/evening.
 - Damaging winds and heavy rain are the main threats.

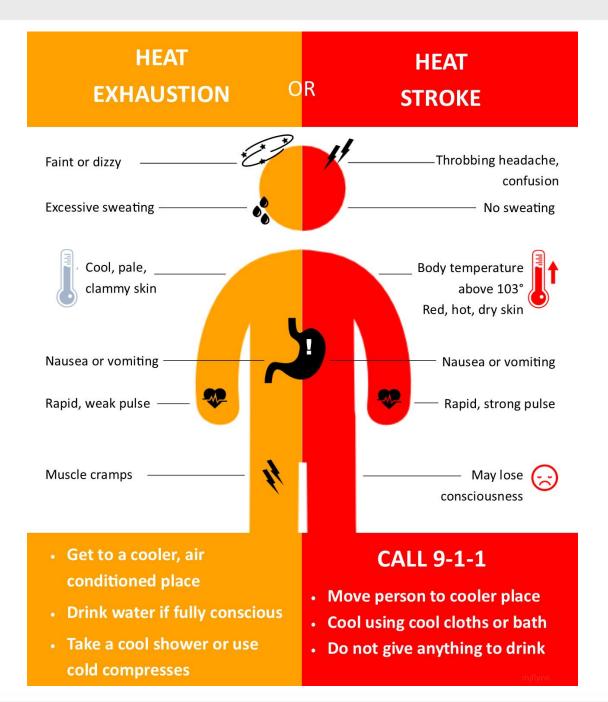

Important Updates

→ No significant changes.

Next Scheduled Briefing

→ This is the final briefing, unless the forecast changes substantially.

Remaining Hot Today, Additional Heat Ahead

June 24, 2025 4:23 AM

Maximum Expected Heat Risk Each Day

Major to Extreme heat impacts are expected over the next several days. Warm overnight lows won't allow for relief from the heat/humidity at night.

https://www.wpc.ncep.noaa.gov/heatrisk/

NWS HeatRisk: Know what heat will mean for you

Category	Risk of Heat-Related Impacts							
0 - Green	Little or no risk from expected heat.							
1 - Yellow	MINOR - Primarily affects individuals extremely sensitive to heat, especially when outdoors without effective cooling and/or adequate hydration.							
2 - Orange	MODERATE - Affects most individuals sensitive to heat, especially those without effective cooling and/or adequate hydration. Impacts possible in some health systems and in heat-sensitive industries.							
3 - Red	MAJOR - Affects anyone without effective cooling and/or adequate hydration. Impacts likely in some health systems, heat-sensitive industries, and infrastructure.							
4 - Magenta	EXTREME - Rare and/or long duration extreme heat with little to no overnight relief. Affects anyone without effective cooling and/or adequate hydration. Impacts likely in most health systems, heat-sensitive industries, and infrastructure.							

Severe Storm Potential

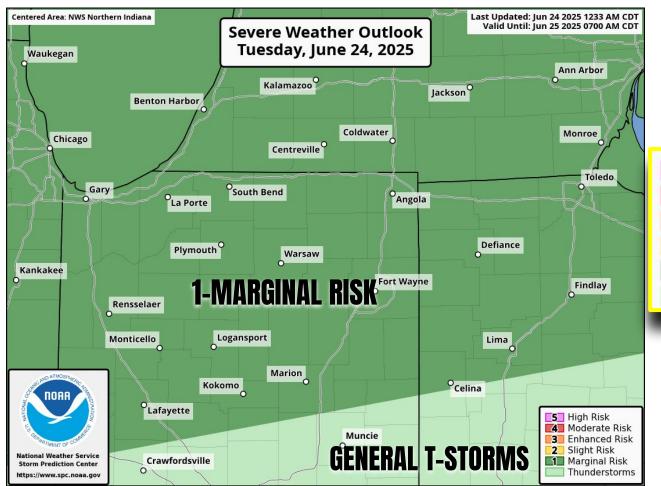

Storm Prediction Center Outlook for Severe Storms

5 High Risk

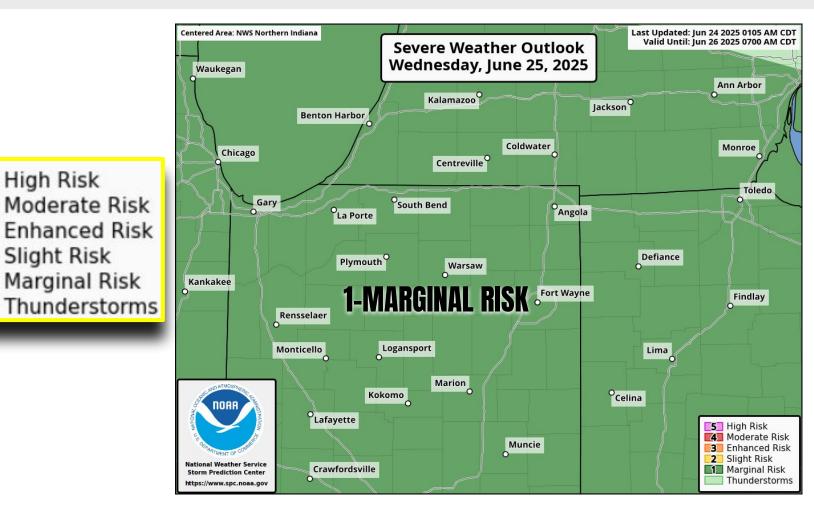

Moderate Risk

Slight Risk

Marginal Risk

- **TIME: 3-10 PM EDT**
- MAIN POTENTIAL HAZARDS: DAMAGING WINDS **AND HEAVY RAIN**
- → CONFIDENCE: MEDIUM (Storms are expected, but the severe risk is low)

- **TIME: AFTERNOON/EVENING**
- MAIN POTENTIAL HAZARDS: DAMAGING WINDS **AND HEAVY RAIN**
- **CONFIDENCE: LOW** (Timing and coverage of storms will depend on Tuesday's storms)

Practice HEAT SAFETY Wherever You Are

Job Sites

Stay hydrated and take breaks in the shade as often as possible

Indoors

Check up on the elderly, sick and those without AC

Heat related deaths are preventable. Protect yourself and others from the impacts of heat waves.

Vehicles

Never leave kids or pets unattended - LOOK before you LOCK

Outdoors

Limit strenuous outdoor activities, find shade, and stay hydrated
